

Ancient Scribe

Game 10 June 1011

GM Note

Don't forget that there are trades to be had. These are available for download off the news page. They offer the ability to trade with other locations around the map. Transport is not required and payment is instant. You can buy up goods of all types including metal and provisions.

I am currently working on an assistance programme for Company Commander. Once the first version is up and running I will start work on the same thing for Ancient Empires that will mean you can dispense with the calculator and the dog eared rulebook and let the programme do the number crunching. Of course this will take a while so watch this space.
